William Hogarty,

Thank you very much for your comments today in the morning meeting. I agree that this process (master grad) was truly challenging to my will and my spirit. I thought a lot about how I would react to our (yours and mine) communication in the past and I was in effect....until Sunday! Sunday was my time to look at how I communicate with others whether by email or by phone. It is my nature to really want to help people and for a reason I have yet to pinpoint, I was been unable to express it whether in email or by phone and even in person. Starting today I have been really focusing on my business communication as well as pinpointing what type of communicators my team members are to ensure our success!!!!

I can't thank you enough for facilitating this change in me!!! It's funny because before I took this job as a full time employee I knew I was supposed to work here. I know now that it was because I was to go to Rapport. I have been in an interesting place in my life where I thought life was always going to suck and lived everyday in effect. Now I can't get enough of this gift that has been given to me, the gift of LIFE. I have been much more focused on my goals, doing GREAT things in life and really living a dash that inspires other people. I am GREAT at keeping positive energy and will continue to project that with my family and my team. HOLD ME ACCOUNTABLE as much as you can. It makes me uncomfortable and I love that feeling... (I laugh as I type it because it is so off the wall for me say it.)

I truly look up to you as a role model! You have accomplished so much in your life that I will integrate into my own. The way you are always looking to improve the person you are and change to only improve yourself is admirable and incredibly inspiring. I wish you all the happiness in your life and thank you again...you have changed my life forever! If you ever need support from me...whatever it is...you have it!

It's a Great Life!
Regards,
